

Patio Doors

Manufactured PVCu patio doors

greenline

When space is at a premium and your customers want easy access to outside spaces, then the Greenline PVCu patio doors are the ideal solution.

Greenline patio doors are engineered to the highest standards and available in a variety of finishes and choice of sliding, and fixed leaf configurations, including thermally-broken aluminium low threshold. The doors include a stainless steel track system to provide minimum servicing issues with little maintenance

Why choose a patio door from profine UK?

- Fully assembled for easy installation
- Tandem rollers as standard
- Yale stainless steel 6 hook bi-directional lock and keep, cylinder, handle set, anti-lift blocks, stainless steel patio tracks, steel frame reinforcements, rollers, thresholds, trims and bump stop
- 28mm insulated double glazed units - internally glazed for additional security
- J-bead design for ease of glazing
- Triple-chambered sash profile for improved thermal performance, with additional slope to optimise drainage and 2mm thick steel reinforcement for greater rigidity
- Optional internal slider configuration
- Optional H17 head trickle vent
- Sliding sashes and interlocks fitted with wool pile for draught exclusion

Simply select your door height, width, hardware choice, sill, finish and configuration, and your door will be delivered to you ready for installation.
